The Vistamar School Supplemental Moderated Fund was established in 2007 through the generosity of a Challenge Grant to assist students with those educational financial needs not covered by the Moderated Tuition award. For instance, if a student cannot afford to purchase a $50 admission for the semi-formal dance, the Supplemental Moderated Fund may be able to subsidize the ticket price. If a student is accepted into a summer program and needs financial assistance, the Supplemental Moderated Fund may be a source of partial funding.

If a family would like to request assistance from the Supplemental Moderated Fund, they should contact the Business Office as early as possible. The family may need to complete a brief form to request the assistance. Decisions will be made as quickly as possible and the family will be notified.

Normally, Vistamar will submit payment of the awarded funds directly to the institution. For instance, if a student is awarded funding for summer tutoring, Vistamar will pay the tutoring company directly.
If you would like to request assistance from the Supplemental Moderated Fund, please submit the request to the Business Office as early as possible. Please attach additional information you feel will be helpful. Decisions will be made as quickly as possible and the family will be notified.
